Google Ads: device performance report

MouDevPro (moudevpro.com) · account 528-046-9672 · prepared 5 November 2026 · main period: last 30 days, 6 Oct to 4 Nov 2026 · amounts in MAD

Summary

• **Mobile brings almost everything: 65 of 66 conversions (98%) and 98% of spend.** That's by design: the two website campaigns (Casablanca and Rabat) run on mobile only.

• **Desktop only runs in google-ads-casa.** 30 days: 16 clicks, 1 conversion, 92 MAD (92 MAD per conversion vs 40 MAD on mobile in the same campaign). Too little data to cut it yet. Review at 300 MAD of desktop spend or 2 more weeks.

• **Tablet is negligible:** 5 impressions, 0 clicks.

• **Best cost per conversion:** google-ads-casa mobile (40 MAD), then Rabat (55 MAD), then Casablanca (93 MAD). Casablanca has the volume (41 of 66 conversions) and the most competitors.

1. By device: whole account, last 30 days

Highlighted row: the only desktop traffic in the account. CPC in MAD. Conversions = tracked leads (mostly WhatsApp / phone clicks).

3. By campaign and device: last 90 days (7 Aug to 4 Nov)

Campaign	Device	Impr.	Clicks	CTR	CPC	Conv.	Conv. rate	Cost	Cost / conv.
Creation-site-web (Casa)	Mobile	7 430	815	11.0%	14.49	130	16.0%	11 805 MAD	91 MAD
creation-site-web-rabat	Mobile	2 058	263	12.8%	9.96	54	20.5%	2 620 MAD	49 MAD
google-ads-casa	Mobile	613	35	5.7%	5.75	5	14.3%	201 MAD	40 MAD
google-ads-casa	Desktop	230	16	7.0%	5.75	1	6.2%	92 MAD	92 MAD
google-ads-casa	Tablet	5	0	0.0%	-	0	-	0 MAD	-

google-ads-casa has no data before this 30-day window, so its 90-day figures match the 30-day ones.

4. Device settings per campaign

Campaign	Mobile	Desktop	Tablet
Creation-site-web (Casa)	On	Off (bid -100%)	Off (bid -100%)
creation-site-web-rabat	On	Off (bid -100%)	Off (bid -100%)
google-ads-casa	On	On (no adjustment)	On (no adjustment)

Settings read from the account via the API on 5 Nov 2026. No device settings were changed for this report.

5. Competitors by device: google-ads-casa

Auction insights, 6 Oct to 4 Nov. IS = impression share. On desktop, Google itself (29%) and reddit.com (16%) show up more than we do (19%). Those searchers mostly want to run ads themselves or are just reading up, which explains the weaker desktop conversion rate. On mobile we lead at 44%.

Domain	IS: all	IS: desktop	IS: mobile	Overlap	We outrank them
You (moudevpro.com)	31.1%	18.8%	43.7%	-	-
google.com	24.8%	29.3%	20.2%	29.6%	22.0%
digitalisq.com	15.9%	11.7%	20.3%	25.3%	24.8%
technopek.com	14.0%	10.1%	18.3%	19.5%	25.7%
reddit.com	11.9%	16.3%	< 10%	13.5%	28.1%

6. Competitors on the website campaigns (mobile)

The Casablanca and Rabat campaigns don't show on desktop, so auction data exists for mobile only. On the 12 keywords checked, every one had 4 to 9 paid competitors, so all of them show buying intent. creaweb.ma appeared on all 12; dotma.ma, mediazain.com, fes-marketing.net and technopek.com on most. Our impression share is weakest on the price keywords: "prix site web casablanca" 31%, [prix site web maroc] 47%. Full keyword table: data/ads/auction-insights-keywords-2026-11-05.md.

7. Recommendations

• **Keep the website campaigns mobile-only.** 64 of 66 conversions come from them on mobile.

• **google-ads-casa desktop: watch, don't cut yet.** Decide when desktop spend reaches about 300 MAD. If cost per conversion is still more than twice mobile's, set a desktop bid adjustment of -50% or turn desktop off.

• **Tablet:** no action needed (no clicks, no cost).

• **Changes made today (5 Nov):** 2 negatives on google-ads-casa ("ad center", how) to block DIY searches. Logged in ads/CHANGELOG.md.

8. Search terms: google-ads-casa

All search terms that triggered the campaign since it started (130 unique terms, 6 Oct to 4 Nov). Google shows the exact search for 27 of the 51 paid clicks (158 of 293 MAD) and 2 of the 6 conversions; the rest are hidden for privacy. The visible clicks fall into three groups:

Intent	Clicks	Desktop clicks	Cost	Conv.	Examples	Status
Clients looking for an agency	10	5	62 MAD	2	agence de marketing casablanca (2 conv), agence marketing digital casablanca, agence digitale casablanca, marketing agency casablanca, agence seo casablanca	Keep: this is the target
People wanting to run Google Ads themselves	11	4	62 MAD	0	ads google (3), google ads (2), google ads library, skillshop google ads, my google ad center, how google ads work for business, comment publier une annonce sur google	All blocked now
Unclear: could be a buyer	6	1	34 MAD	0	annonce google, publicite google, google leads, google annonce local service, campagne shopping google ads, google ads for dental clinic	Watch

• **The agency searches are what works.** Every conversion with a visible search term came from "agence de marketing casablanca". Half of the desktop clicks were also agency searches, so desktop isn't pure waste.

• **The DIY problem is fixed.** The highest-impression term was "google ads" (177 impressions, 2 clicks). It's now excluded with an exact-match negative, together with ads google, library, skillshop, comment, "ads center", and since today "ad center" and how. About 62 MAD of the 30-day spend went to these searches, mostly before the 30 Oct negatives.

• **Searches by industry are worth keeping.** "google ads for dental clinic", "google ads for travel agency" and "google hotel ads" can be business owners looking for someone to run their ads.

• **Competitor names show up a lot but cost almost nothing.** 40+ impressions and 1 click for agency names, e.g. twily, vml, mosaik, saga, klem, inception, conversium, somo solutions, disruptia, v5 digital, mediazain, perfect telemarketing. Several are already negatives (nexus ads, nao media, atelier digital, gg medias, eskimoz, edicom, boxcom, next click). Optional: add the rest as negatives to keep CTR clean. Low priority, because they don't cost money.
